

MILESTONE

SIKORSKY S-92A

A MULTI-PURPOSE FIRE-FIGHTING PLATFORM

Milestone Aviation, an AerCap company, together with Helitak Firefighting Equipment, have developed a new mission for the Sikorsky S-92A as a next-generation, multi-purpose fire-fighting platform.

Combining the S-92A's unrivalled capabilities with Helitak's innovative aerial fire suppression tank has allowed us to develop a turn-key firefighting platform ready for immediate deployment in fire missions across the globe.

Why the S-92A?

- The S-92A is the global leader in high-capacity civilian passenger transport services.
- Offers modern avionics and a dynamic cabin layout capable of transporting crews of up to 19 firefighters.
- Ability to perform equipment transfers with its rear-loading cargo ramp.
- Adaptable for winching, medevac and emergency extractions, and night 'NVG' drop operations.
- Over 700 revenue hours & 6,000 drops flown on fires across Canada in 2024 & 2025.

The innovative Helitak FT5000

- A lightweight and sophisticated 5,000 litre (1,320 US gallons) collapsible belly-mounted water tank.
- A trapezoid design that achieves a fill time of 48 seconds with a drop time of four seconds.
- Easily configurable drop patterns through integrated controls.

What we can offer

- Flexibility to meet operational requirements around the world.
- Limited up-front investment to start a new fleet.
- Increasing availability over coming years to match growth expectations.

Global Leader in Helicopter Leasing

- Founded in 2010 and headquartered in Dublin with offices in Dubai and Miami.
- Largest owned commercial fleet and the leader in every industry category.
- Most knowledgeable, experienced and customer-focused team in the business.
